## Liquid Food Grade Tanks And Trailers

# Transport. Pick-Up. Direct Ship.

### Experienced, Custom Tank Manufacturer:

- Engle's extensive experience and innovation in liquid food grade transport since 1972 provides higher quality and workmanship!
- Engle sets the standard for quality and performance: truck-mounted tanks to bulk transport trailers; elliptical frame-and-cradle to exclusive all-stainless steel, cylindrical, bolster-style trailers.
- Customize your tank or trailer to meet your specific requirements with unlimited configurations and features. **Don't tailor your needs to your trailer – fit the trailer to your needs!**
- Single or double compartments, multiple axle groupings, CIP systems and a host of other convenience features delivers uncompromised performance and efficiency - any volume capacity or tank length!

### Exclusive 100% Stainless Steel Trailers:

- Engle cylindrical trailers are designed for maximum durability and service life. Our trailers are built to perform better over more miles while projecting a sleek, professional look for your operation.
- Stainless steel rings are welded directly to the barrel for unmatched strength and dependability. *No frame to crack, no added weight.*
- Bolster-style design and suspension frame design minimizes maintenance requirements and allows more cost-effective multiple rebuilds.

### Patented Vacuum Tank Technology - Innovative Leader:

- Engle has perfected today's high technology, state-of-the-art vacuum tanks since 1994. Vacuum tank technology leads the way with the most efficient operation possible. Our patented vacuum tank is easy on the operator and the product. There's NO impeller agitation of the product – EVER! A sanitary float shut-off system is also included.
- *Only known tank in the food-grade industry that is a completely sealed vessel and bio-secure to eliminate unfiltered contaminants!*
- A variety of drive system selections require no on-site power, allowing loading virtually anywhere, under any condition.
- Vacuum compartment(s) are implosion-proof and nearly indestructible.

### Service and Support Focused:

- Complete repair/remanufacturing facilities to keep your equipment fully operational through nearly any circumstance. Quick turn-around and thorough repairs help get your tank or trailer back on the road sooner and keep it there longer. **All makes and models serviced!**
- Rental/loaner set-ups available to avoid costly down-time on a repair or rebuild. Units available for test use when considering a new Engle tank or trailer purchase.
- *On-site service and support.* Let our experts come to you for minor repairs or cost estimates on future service work or rebuild.
