

Designers & Builders of Custom Tanks & Trailers

Conventional & Vacuum Fire Apparatus: Fire Tankers

Custom-built for your department, your community

When the call comes in, go out knowing you're rigged with the most reliable, best-built fire apparatus available. Engle has the experience to build the configuration your department needs to serve your citizens and their property. From standard water delivery systems to foam proportioning systems or compressed air foam systems, we build civic pride into every job.

Conventional & Vacuum Fire Apparatus

Fire Tankers

Poly Tank, Steel or Stainless Steel, Engle Fabrication Has More Features, More Styles, More Options!

Choose From 1,000 – 6,000 Gallon Tank Capacities:
Round, Elliptical, or "T"-Style!

Three Main Tanker Body Styles Available:

- **High-side** - The tank is fully sheeted with a large topside flat deck for storage
- **Low-side** – The majority of the tank is exposed and features catwalks, compartments, fender panels and rear stepdeck - all integral parts of the body
- **Fender Style** - There is no fabricated "body"; the tanker features contour fenders over the rear wheels with optional compartments

Uncompromised Vacuum Tank Truck Performance:

- Proven cross-industry vacuum tank engineering and performance provides for the most innovative vacuum tanker truck units available!
- Vacuum tank technology provides the quickest loading and unloading possible, plus the ability to fill from longer distances and higher heights all with fewer people

More Cabinet Choices, Lighting Features, Valve Designs & Pump Options:

- Roll-up or swing-out doors; slide-out drawers and trays; door-activated lights, slam latches, sweep-out cabinets, door checks, and more!
- Portable pumps can be installed in compartments or the stepdeck; PTO pumps can be installed under or ahead of the tank
- Configuration of pump plumbing and lighting layout is always fit to your individual needs
- Fill valves and dump valves designed to meet your requirements of size, type, and location

The Engle Difference:

- Expertise in custom tank truck manufacturing and service since 1972
- We can provide on-site service as well as the ability to completely refurbish existing fire equipment
- Personalized, detailed assistance and support — from bid spec through build!
